Additional Notes:

- Supplies for our subjects are **COLOR** specific. This is done in order to help our students become and stay organized throughout the school year. We encourage students to get their supplies early in order to obtain the correct colors.
 - Students will receive assignment books and a homework folder the first week of school.
 - Students will need to replenish worn out and/or lost supplies throughout the year.
- *Please note:** supplies brought in that are not on the list will be sent home.
- **** Should have division/multiplication flashcards, or they may be substituted with any app or your existing IXL.com account that will help the student to have **ALL their basic addition, subtraction, multiplication, and division facts mastered BEFORE entering into fourth grade.** They will need to continue to use these throughout the year to retain knowledge of math facts.

Have a wonderful summer and see your 4th Grade teacher in September!
