

Dear Families,

Over the last few days, I have had some conversations regarding the 2021-2022 St. Mark School Reopening Plan. The previous plan has been updated with the help of Dr. Lauren Kuwik and the approval of the School Board. A few major points to the document are the following.

- All students enrolled at St. Mark School will be given five day a week in person instruction.
- All faculty, staff, students and visitors must wear a mask when inside of St. Mark School.
- There will be a continued emphasis of social distancing students 3 feet away from one another, ventilation of air throughout the building and proper hand washing procedures.

The above changes to the plan were made with the guidance and recommendations provided by the Superintendent of Schools Dr. Timothy Uhl, (see attached).

Thank you all for your commitment and support of St. Mark School. To see the complete reopening plan, please visit our website, [www.saintmarkschool.com](http://www.saintmarkschool.com).

Sincerely in Christ,
